COMPUTING COMPETENCIES

Front-end Development
HTML5 | CSS3 | JavaScript ES6+ | CSS Frameworks: Bootstrap, Tailwind, & Bulma | JavaScript Frameworks: React & jQuery

Back-end Development
Node.js/npm |Express | VS Code| Git/GitHub | RESTful APIs | MySQL & Sequelize | Node Testing Tools: Jest & Vitest

CODING PROJECT EXAMPLES
(ALL VIEWABLE AT GITHUB.COM/MSTEVEN5)

The DATA TRANSALATION App
Group Project | Technologies Utilized: HTML | CSS | Tailwind | Bulma | JavaScript | RESTful API

- For this project, I leveraged the Google Translate API for translation of user-input text.
- The Random Word API was used to generate words for translation based on a user input button.
- Implemented JavaScript to handle the translation process, allowing users to translate their chosen input or generate and translate random words.

The Weather Viewing App
Independent Project | Technologies Utilized: HTML | CSS | Bootstrap | JavaScript | RESTful API

- I leveraged Bootstrap and vanilla CSS to create a tasteful user-friendly design.
- JavaScript was used to make API calls to the OpenWeather API, fetching and displaying accurate and up-to-date weather information for a 5-day forecast.
- The user interface is simple, but effective while utilizing localStorage to save search results.

Timed Coding Quiz
Independent Project | Technologies Utilized: HTML |CSS | JavaScript

- Implemented JavaScript to manage a timed quiz with features such as subtracting time for incorrect answers.
- This quiz uses localStorage to allow users to save and display their high scores.
- Designed the quiz to cycle through questions dynamically upon correct answers.

PROFESSIONAL EXPERIENCE

Assistant Store Manager
AT&T Mobility | Austin, TX | July 2019 – November 2023

From this role, I gathered several soft skills that could be easily transitioned into the world of web development, leveraging my leadership and organizational skills to excel in a new domain.

- Led a team of 7+ individuals, fostering collaboration and teamwork.
- Managed inventory and conducted back-office tasks, highlighting my attention to detail and organizational prowess.
- Aligned our systems with the innovative technologies of the industry, ensuring they were consistently up-to-date and in compliance with the latest standards.
